

COMPANY PROFILE

We are a leading VoIP provider in the domain of international calls.

We specialize in assisting BPOs (Call Centers, customer contact centers, Telemarketing firms ...etc.), and Businesses in promoting their products and services over the phone.

We provide Excellent 7/24 Technical support to ensure the best service and best quality.

At iVoipe, we make sure to provide high quality calling routes through our huge network of operators to ensure that Your campaigns successfully reach out to your target customers. We cover China and All Fareast, Europe and USA.

## Our international calls are at hands of those who wish to call

their families and friends either on a land line  
phone or mobile phone.

# Mission

Our mission is to provide distinctive and professional (VoIP) services that will assist BPOs (Call Centers), VoIP Providers, and Businesses, in gaining potential customers around the globe.

Our concern is to build a good reputation and compete in a niche VoIPmarket. This will come by providing customers with excellent service and understanding their needs.

# Vision

Our vision is to maintain progressive and solid growth. We want to be present and renowned in all VoIP markets by offering a diversity of products and services.

Our vision is to bloom at the heart of the VoIP market by offering high quality and user-friendly services and products; Thus becoming your No.1 choice when calling the world.

## Call Center VoIP routes:

Suffering from Dialer Traffic? Well, no need to worry we can handle your call center traffic by sending it to iVoipe where it'll all be dealt with in a fast and superior quality.

Since we have VoIP termination capacity for your call center, we have the port allocation to anywhere you need in order to make your customers more profitable. You need more connected calls and we can make it happen!

**What's more?**

- 
- ✓ We provide IVR Traffic.
  - ✓ We offer high quality FAS Free routes with good call-back ratio.
  - ✓ We route/terminate calls to mobile GSM operators like (TATA, Malaysia Tel, Korea Tel, MTN and others).
  - ✓ Our rates are aggressive and market competitive.
  - ✓ We offer flexible billing system.
  - ✓ We provide 7/24 technical support.

## Low Duration Traffic Termination (CC):

At iVoipe, we determine market demand for products & Services and understand the formula for bridging the gaps. With its large interconnection of operators all over the world, iVoipe can terminate your low duration traffic in Europe, the Far East, USA/ Canada, and the rest of the world.

### With our service:

- ✓ We use peer Edge switch
- ✓ We pass Local & Non-Local ANI traffic
- ✓ We offer dialer termination
- ✓ We sell valid numbers

## Bulk SMS Service:

SMS messaging is a reliable method of communication and can be quite costly, but with iVoipe, we change the game by providing a bulk SMS service which is available on an **international level**.

SMS is still the best marketing tool for large and small businesses in terms of higher open and response rates and can quite **boost your sales and increase customers' awareness of your business**.

iVoipe has made, free of charge, user friendly and customizable SMS interface that will allow you to **reach millions of prospects and customers in a matter of seconds**.

## Call Shop VoIP Solution:

iVoipe offers a clear VoIP alternative. No more need for expensive Hardware & software or even high-priced services by call shops.

All you need is a standard phone or a PC to efficiently manage all the call shop activities such as billing, tariff rating, financial and statistical reporting with utmost accuracy, reliability, and security.

# Enterprise IP Phones:

**You got an IP phone in your office?**

Why not save up some money using our service making international calls?

And even if you have **IP-PBX** you can still enjoy cheap international calls to your VoIP service provider by **linking your SIP trunks to our SIP servers.**

## Mobile Dialer:

Connect to our reseller platform. Enjoy great calls with low-cost services that keep you connected no matter the miles.

We use the most popular software for the dialers which is (iTel Mobile Dialer) that aids you in making worldwide voIP calls with a simple touch on your Android or IOS smartphone or with a simple click on your PC.

Make calls anytime you're connected to the internet whether Wi-Fi, 3G or even 4G.

## Top Ups:

Simple mobile top up anytime, anywhere, and anytime.

Connect to your beloved ones around the globe with our International Top Ups!

Recharge your own or any Mobile line number and give them the airtime they need with their local providers.
